Monash College, Melbourne — *Bachelor of Engineering (IT stream)*

OCT 2016 - JUL 2017

PROJECTS

Kontax Cam — *Instant camera hybrid app for digital and film photographers. (On the app store)*

Kontax Cam is an open-sourced app that I created as a way for photographers to take photos that just pop. It's an instant camera that has custom filters and effects personalised by me. Kontax cam website

NookNook — *Powerful companion app for Animal Crossing: New Horizons. (On the app store)*

I developed this app since there are no apps on the app store with the functionality that I wanted. So, I came up with my own design and developed
